Maryland Association for Multicultural Counseling and Development (MAMCD), (1975-1987)
2 boxes (2 linear feet; unprocessed)  AR-20

The Maryland Association for Multicultural Counseling and Development (formerly the Maryland Association for Non-White Concerns, MANWC) was loosely affiliated with ANWC (Association for Non White Concerns) and APGA (American Personnel and Guidance Association). The archives were established at the Thurgood Marshall Library, Bowie State University, in the fall of 1980. To quote from a brochure created on the establishment of the archives, “Bowie State College was chosen as the site for preserving the Archives because of the key role it has played in the development of minority leadership. Furthermore, MAMCD had its inception under the capable tutelage of Mr. Clemmie Solomon, who was the Assistant Dean of Students at Bowie State College.”

Box MAM-1 contains the records and photographs of the organization, including the Constitution and Bylaws; newsletters; workshop materials; publicity materials; contents of 2 scrapbooks; correspondence; meeting agenda and minutes; charter; treasurer reports; photographs (color and B/W).
The contents of the two scrapbooks were removed from binders and self-adhesive pages due to preservation concerns. Scrapbook 1 was for Mavis Boone, one-time president of the organization. Scrapbook 2 was older and only included photographs. Photographs were kept in order as much as possible.

Box MAM-2 contains two black felt banners created for MAMCD at the installation of the organization’s archives at Bowie State University in 1980; these appear in some of the photographs.
